PRESIDENTS MESSAGE

Guru Sree Narayana is often labeled as a social reformer, Advaita philosopher, Hindu religious revivalist, etc. But he was much more than all this. He was the foremost preacher and practitioner of human rights, dignity, liberty, equality and freedom. With his deeds and words he influenced the whole of mankind. Even the Father of the Indian nation, Mahatma Ghandhi was influenced to a great extent by Guru Sree Narayana. Though he never experienced the life of any country other than India and Sri Lanka, his philosophy if practised can solve any problem facing the world today. So it is our duty as his devotees to propogate his noble teachings to the world.

No organization can achieve its aims without the hard work of its members. The total strength of any organization is the combined and co-ordinated efforts of its members. However large the numerical strength of an organization is, without the co-ordinated hard work of every individual member it cannot achieve its goals. To achieve the goals of our organization we should function as a unit, not as individuals. So let us continue to channel our energy together, complimenting each other as we reach our goal.

Last year was the most active and productive year in the history of Sree Narayana Association. The tour of Mr. V. Sambashivan has enhanced the prestiege of this organization throughout this country. Every member of this organization can be proud of this. The national recognition we earned in the Indian community shall go a long way in fulfilling our future programs.

Let Guru Sree Narayana guide us through every endeavour of ours.

P. UDAYABHANU
