EDITORIAL

History shows that the time carries out its creation of greatness at an inevitable situation. When a social system eroded to the level of essential corrections the birth of great saints takes place. The birth of Sree Narayana was one of those kind. Commemorating his birthday the (Chathayam) has no less significant when one takes a close look on his philosophical ideas which best suited for a modern scientific world. He realised that a divided society with the barriers of caste and creed won't be helpful for a growing new world. A saint, social reformer, philosopher and a poet Sree Narayana weaved his revolutionary ideas to teach people to understand the rich philosophy of Hindu culture and to throw out the caste system and other orthodox religious misconceptions. He started a silent revolution against the castism and other superstitions. Even though some of these evils still exist in our society the guidance of his philosophy could stop their progress to a great extent.

On this auspicious occasion of 135th Gurudeva Jayanthi and the 10th Anniversary of Sree Narayana Association of North America we all stand united to fight against the social evils of this world with the help of the magnificent power of Sree Narayana Philosophy.

As we celebrate Gurudev Jayanthi, we proudly present this Souvenir. However, the efforts is big or small we hope your appreciation and we thank those who helped this task to a grand success. Once again we express our sincere thanks to all authors who provided us with articles, and all others from whom we received financial support to publish this Souvenir.

PUBLISHING COMMITTEE.

ONE IN KIND, ONE IN FAITH, ONE IN GOD IS HUMAN
